

Room 5 Term 3 Class News!!

Miss Shauna

Talk, Read, Write

Students in Room 5 have been involved in a talk, read, write rotation in the mornings from 9:00am-9:30am. They have really enjoyed using the play dough to form letters as part of their writing rotation.

Digital Technologies

In Digital Technologies students have been learning about some new words that are used with machines. They have learnt about the words Algorithm and Program. We have also made some Lego mazes to hopefully be 3D printed this term!

Port Augusta Secondary

Port Augusta Secondary students are continuing to work with Room 5 students. The students come and visit us every 4 weeks! So far we have been working on our reading with the students. Room 5 students always look forward to when the high school students come and visit!
