# Pupil free day Friday 18th

### Good News from Governing Council

The new jackets for rooms three four and five have arrived. They are embroidered with the school logo. Our aim is to issue these to students in Reception and if they complete their Junior School years; up to grade two; they will be given their jacket in recognition of their time at Carlton School. Governing council have also supported purchasing new iPads for use in rooms 3,4 and 5., and new furniture for room 13. We looked at our Grievance Policy and I shared the latest Maths Numeracy Agreement with Councillors. Our next meeting has been rescheduled to week 9. These meetings are always open to visitors so please just let us know if you would like to join in for a meeting.!

### Assemblies

School assemblies are held every week on Wednesday at 12 30 and are a good place to see what your children – our students have achieved in the previous week. You are very welcome to attend Last week T'Kira and Martina shared their science experiment with all of us and showed the reaction of oil, food colouring and bicarbonate of soda. Bubbling, fizzing colourful fun! We also tried to find out the effect of static electricity on the movement of objects but there was too much moisture in the air and our experiment did not work. Science can be like that!

### Visiting students

If you know of families moving down to Port Augusta, even for only a couple of weeks, remember that continuing children's learning in a classroom environment is good practice. Carlton School welcomes visiting students and their families. We ring your previous school so that we can match your learning activities better so come in and fill in the green forms and get back into learning.

### Talk Read Write

Every morning between 9am and 9:30am all classrooms are currently trialling this way of starting the day. We have planned to have 3 adults ( including the class teacher) working with small groups of children on their reading writing and talking so that they become more confident in these three skills. So far the program is going well but we would like to see more children at school on time. Please help by getting your children off to a good start every day. We want a school full of strong readers!
